

SAINT MOSES CHURCH

Since the establishment of Saint Antony Monastery in California two decades ago, the number of visitors wishing to spend a spiritual day at the Monastery has continually increased. The Monastery's first two churches, Saint Antony's church and Saint Mina & Saint Abanoub's church were unable to accommodate for

all those wishing to take the blessing due to size. In response to the needs of the people, we began construction of a new church in the name of Saint Moses the Strong in October 2006. Thanks to your prayers, the Church is anticipated to be open for liturgical services by the end of 2012. If you would like to take the blessing of donating towards this project or the new construction of monk cells, please [click here](#). May the Lord reward you a hundredfold.

Pictures of the construction progress can be found [by clicking the following link](#).
